

Excel – Shopping Spree

You have just received a registered letter in the mail. After signing the delivery slip in cursive, you open the letter. It is long and has a lot of important sounding words. It turns out that you have been given a gift of money, but it comes with strings attached. You have to buy at least 10 items and *all* the money has to be spent, right up to the total! You also have to provide evidence of what you bought.

Being the clear thinking, hard working kid from LaConner Elementary that you are, you decide to record all your purchases in Excel. Make your spreadsheet look just like the one below. You have \$1500 to spend on 10 or more items!

SHOPPING SPREE

Store	What I Bought	Cost
Cabellas	Cabellas Cool Mesh Life Vest	\$26.99
Walmart	PS4	\$399.00
Amazon	Iphone 4s	\$378.99
Ikea	Katlstadt Sofa	\$399.00
<i>Total Before Tax</i>		<i>\$1,203.98</i>
<i>Tax (8%)</i>		<i>\$96.32</i>
TOTAL SPENT		\$1,300.30
