

This week in Grade 5...

Math: We are continuing with Geometry, working on triangles! You will learn what the different types of triangles are and how to classify them in 6 different categories. It would also be fantastic if you will continue working on the May Math Facts Challenge, and return your fluency chart to your teacher.

What did the triangle say to the circle? You're pointless!

SCIENCE: If you haven't finished your Salmon Choice Board from last week, please continue to work on it.

READING/SOCIAL STUDIES/ART: This week we are going to start learning about The Thirteen Colonies.

Please continue filling out your daily reading log for this month.

REMINDER: You can find all the needed resources on your teacher's classroom website. May Reading Log, Library Book Checkout Request, May Math Facts Challenge Fluency Chart, Links to all Videos, PDF's, and Past Assignments. If there is something you can't find, contact your teacher, and she or he will get it to you!
